[a] The figures for 1841, as published in *Gazette*, are full of errors which cannot now be corrected, and should therefore be used with great caution.

[b] The figures (Persons) for 1847 include 2246 military, women, and children; also 3739 male convicts on public works.

[c] " " 1851 " 9 " " " " 568 convicts, sex not distinguished.

[d] " " 1857 " 630 " " "

[e] The discrepancy in the number of brick and stone houses in 1870 and 1881 arises from a large number of residents in country districts failing to give definite descriptions.

This table is to be read thus :—In every 100 of the population in 1870 under one year, 51·40 persons were males and 48·60 were females : or, to avoid decimals, in every 10,000 persons in that year 5140 were males and 4260 females.

To find the masculinity as it is at present measured by the Com. Statistician, double the difference from 50, *e.g.*, 1870, all ages, percentage of males is given above as 53·21 ; masculinity is then 6·42, *i.e.*, the excess of males in 100 of population.

Number of Females to 100 Males.

* Note.—For the purpose of these Analytical Tables—and following the method adopted in Tasmania in previous censuses (1891 and 1901)—permanent inmates of asylums, invalid depôts, gaols, &c., and now dependents on public or private charity, are not included in the category of Effective Breadwinners, even though in their earlier years they had been actively engaged as Breadwinners in some specific class of occupation.

[Compiled by Government Statistician from Returns published by Commonwealth Electoral Department.]

Distribution of Population, 31st March, 1920.

The population of the State of Tasmania is known within moderate limits, but for the years since the Census 1911, the population of parts of the State—towns, municipalities, &c.—cannot be estimated with any accuracy.

It has been the custom to ignore any movement of population within the State, which would be very difficult to record, and to distribute the migration to and from the State among the parts of the State in proportion to their population, and give the result as the "estimated population."

These figures have now become obviously very inaccurate, and conflict with the evidence of housing, birth and death rates, and, most of all, with the figures of the electoral rolls, which are now, when carefully analysed, the safest guide to the distribution of population.

A new estimate has, accordingly, been prepared, based on all available data, for the population of towns and municipalities, which will be used for statistical purposes until the results of the new census are available.

The new estimate is made, in the first place, for the 31st March, 1920, because that is the time of year when the census is taken, and in Tasmania the population at that date is always very near the mean population for the year, and represents the fixed population, apart from seasonal fluctuations.

The basis is the State population at that date, as determined by the Commonwealth Statistician. Even this cannot be taken as strictly accurate. It is based on the figures for natural increase and migration, but an allowance is made of an additional 500 males per annum to Tasmania to compensate for unrecorded migration. This figure was based on the experience of the intra-censal period 1901-1911, and may no longer be correct. By this allowance an additional 5000 males (nearly) has been added to the Tasmanian population since 1911, above the recorded figures of migration and natural increase. There is reason, from internal evidence, to suspect that this allowance has been too large in recent years, and that the population at the census may turn out to be two or three thousand less than the Commonwealth Statistician's estimate. In that case, the subjoined estimates of municipalities will need corresponding correction.

The new estimate given below is in round numbers, and does not pretend to close accuracy; but whereas some of the figures of the old estimate are probably 100 per cent in error, it is hoped that the new ones will all be within 10 per cent. of the true figures.

The first table gives the new estimate of the chief towns, and the census figures of 1911 are placed alongside for comparison.

The second table gives the new estimate of the populations of municipalities. The old estimate, and the figures of the census of 1911, are printed alongside for comparison. The fourth column shows the difference between the new estimate and the old, and the fifth column the increase or decrease since the census, according to the new estimate.

NOTE.—The two tables above (and other similar tables), must be read with some caution on account of changes of classification that have taken place before 1910. Since 1910 the classification has been substantially uniform. In the last table, in order to allow for known changes, the classes 89, 91 and 92 are grouped together; as are 151 and 152. For the same reason, but with less certainty, 71 and 104 are grouped together tentetively at the end of the table.

AGRICULTURAL AND LIVESTOCK STATISTICS, 1919-20.

Crops have, on the whole, turned out better than was anticipated in the December forecast. Farmers at that time were inclined to take a very gloomy view of prospects, but rain came in time to save the later crops, and the North-West has, on the whole, done well. Wheat and oats have turned out considerably above the estimate, and hay also to a smaller degree. Pease, both blue and grey, were about as low as anticipated, and potatoes slightly worse.

Compared with last year there is an increase of 10 per cent. in acreage under crop. Oats, hay, and potatoes show considerable increases, and pease a large decrease.

The total acreage is about equal to the average of the last 10 years.

The yield of wheat was 18·6 bushels per acre, which is the best since 1915-16, and only just below the decennial average of 19 bushels per acre. The same may be said of oats, with a yield of 25½ bushels, against a decennial average of 27 bushels. Blue pease, on the other hand, gave a lower yield than last year. Hay was slightly better than last year, with about the average yield.

Potatoes, though also slightly better than last year, were still about 6 cwt. per acre under the average. Apple returns are not very accurate, but they show 1400 additional acres in bearing, and a yield of 2,350,000 bushels, or nearly 400,000 bushels more than in 1919.

Total production shows nearly 50 per cent more oats, 25 per cent. more hay, and 20 per cent. more apples and potatoes than last year. Blue pease, on the other hand, are only half the total yield of last year, and hops are 25 per cent. less.

MINERAL PRODUCTION.

The value of Mineral Production as given in the following tables for 1919 and past years is in general the value of the pure metal contents of the ores mined, not the value of the ore when it leaves the mine. It includes, therefore, the value added to the ore by smelting, refining, &c., whether done in Tasmania or other States. The value of smelting, &c., is also counted in industrial production, and is, therefore, improperly duplicated in the total value of production. The extent of the duplication in Tasmania may be roughly estimated at £500,000.

LEGISLATION AFFECTING LABOUR CONDITIONS.

SUMMARISED Contents of Main Parts of Acts (1910 and 1911) in Force.

Headings	Particulars.
Factory.	A factory is defined as a place or structure wherein (*a*) *four* or more persons are employed; (*b*) *one* or more persons of an Asiatic race is employed; (*c*) power (other than horse or hand) is used; (*d*) every bakehouse used and every quarry or clay-pit worked.
Application of Act Exemptions.	The Act applies to the whole of Tasmania, except— (*a*) Prisons, reformatories, industrial schools, or homes for erring women; (*b*) any building conducted for charitable purposes; (*c*) any building used for the manufacture of dairy produce; (*d*) premises used for pastoral, agricultural, or horticultural purposes; (*e*) ships. The Governor may exempt any factory.
Registration.	Every factory must be registered. No factory may be used until registered. (The present office for registration is "Public Health Department, Hobart.")
Records.	A true record of specified particulars, including the names, work, and wages of each person employed, and the ages of those under 21 years, must be kept by the occupier of each factory. Said particulars must be available to the inspector, and a copy furnished annually to the Chief Inspector.
Inspectors.	Inspectors have the right to enter and examine a factory at all reasonable hours. They may order, once in 14 months, the washing of the interior of every factory.
Cleanliness, Sanitation, and Safety.	Every factory must be kept clean, well ventilated, free from over-crowding, and provided with necessary accommodation for males and females. Doors must be kept free from obstruction, and fire-prevention appliances kept in readiness.
Sleeping-places.	No factory shall be used as a sleeping-place.
Meals.	A meal may not be partaken of where employees are working, or, in certain cases, where employees have been working.
Intervals.	No person shall be employed continuously in a factory for more than five hours without an interval of an hour for a meal.
Bakehouses.	The interior surface of each bakehouse must be washed once every 12 months. Underground bakehouses may not be used.
Child Labour.	No child (*that is, a person under* 14 *years of age*) shall be employed in any factory.
Restriction of Employment in Dangerous Trades of Children and Females.	No *female*, or no *person* under 18 years of age, shall be employed in any factory where . . . (*a*) Silvering of mirrors by mercurial process; (*b*) white-lead making; (*c*) Lead-glazing or pottery; or (*d*) wet spinning is carried on. No female under 18 years of age shall be employed in a glass melting or annealing factory. No *female* under 16 years of age shall be employed in making or finishing bricks, ordinary tiles, or salt. No person under 16 years of age shall be employed in any part of a factory where (*a*) dry grinding in the metal trade; or (*b*) dipping of lucifer matches is carried on. No female or no boy under 16 years of age shall be employed as type-setter in a printing office, (*a*) longer than eight hours in one day; nor (*b*) between the hours of 9 o'clock in the evening and 6 o'clock in the morning.
Sections of Acts Posted Up.	Sections of Acts relating to the restriction of employment of women and children in dangerous trades shall be posted up in a conspicuous place in each factory for the information of employees.
Maximum Hours of Employment of Women and Young Persons.	No young person or woman shall (except in certain specified conditions) be employed in a factory for (*a*) more than 48 hours in one week; (*b*) more than 10 hours in one day; (*c*) later than 9 o'clock in the evening in manufacturing articles; (*d*) after 1 o'clock in the afternoon of one working day in each week. The Minister may suspend the operation of this section. The conditions on which the above hours may be exceeded are:—(*a*) The hours shall not exceed 54 hours in one week; (*b*) the aggregate (above 48 hours) shall not exceed 200 hours in one year; (*c*) detailed particulars of purpose and necessity of work shall be forwarded (within 24 hours) to the Chief Inspector. Time and a quarter rates shall be paid for overtime; and (to those employed after 6 o'clock and not receiving more than 15s. per week) not less than 6d. tea-money shall be paid.
Exemptions of Specified Factories from Maximum Hours of Employment of Women and Young Persons.	During the months of December, January, February, March, and April factories wherein are prepared or manufactured fresh fruit, jam, or other perishable materials are exempt from Section 51 of this Act relating to maximum hours of employment of women and young persons; but *not exempt* from the subsection referring to overtime rates of pay.
Overtime Pay.	Time and a quarter shall be paid for overtime.
Certificates of Birth and Fitness.	Every employee under 16 years of age shall, when required, produce a medical certificate of fitness for employment and a birth certificate to the inspector.
Hours of Women and Young Persons in Shops.	No person under the age of 16 years and no woman shall (except with the consent of the Chief Inspector) work in a shop, (*a*) longer than 52 hours (excluding meal-times) in one week; or, (*b*) longer than nine hours in one day, except on one day a week, when 12 hours' work may be done. In a week in which a public holiday (other than Saturday) occurs, 12 hours a day may be worked on two days of such week if the shop be closed for such holiday. The Chief Inspector may grant permission to work not more than three hours' overtime in any one day, and for not more than 40 such days in one year.
Minimum Wage.	Every person in a factory shall be paid not less than, (*a*) for the first year, 4s. a week; (*b*) for the second year, 7s. a week; (*c*) for the third year, 10s. a week; (*d*) for the fourth year, 13s. a week; (*e*) for the fifth year, 16s. a week; (*f*) for the sixth year, 19s. a week; (*g*) for the seventh year and thereafter, 20s. a week, unless such person is the holder of a licence to work at a less wage. The minimum wage does not include overtime pay.
Premiums.	No premium in respect of the employment of a person shall be paid.
Sitting Accommodation in Shops.	One seat to every three females employed shall be provided, and conveniently situated, in every retail shop for the use of the female employees.

NOTE.—HOBART—There are 16 boats engaged out of Hobart in specially fishing for the export trade. The above returns do not record such cargoes for the mainland. Owing to the influenza epidemic, and, in consequence, the absence of trading facilities and the health restrictions imposed, it is estimated that 100,000 barracouta were caught and used for manure. During 8 weeks of 1919 there were no fish offered for sale in the market, mainly due to weather conditions.

LAUNCESTON.—In addition to the boats (14) fishing for market purposes, there are 14 boats engaged in fishing which deal directly with shops.

FRIENDLY SOCIETIES: REPORT OF THE STATISTICIAN FOR THE YEAR 1919.

Statistical Department,

Hobart, 6th October, 1920.

SIR,

IN accordance with the provisions of "The Friendly Societies Act, 1888," I have the honour to furnish the following Report with respect to the year 1919:—

RETURNS AND INFORMATION.

1. The usual tables disclosing the operations and state of the finances of each district and branch society which furnished returns to this office for the previous year were duly published and distributed on application. A few societies still continue to cause trouble and expense by protracted delay in sending in returns. At the present date there are still wanting returns from two lodges, but it was inadvisable longer to postpone this report.

RECEIPTS.

2. Membership, which has been gradually falling off since 1914, showed a small increase of about 1 per cent. over 1918. All the ordinary items of revenue show an increase, but the receipts from insurance of deceased soldier-members fell from £22,206 to £8732. This large reduction caused the total receipts to fall by £4377, but the ordinary revenue rose from £81,139 in 1918 to £90,236 in 1919, an increase of 11 per cent. The accumulated funds increased by £8738, and now average £12 0s. 4d. per member, against £11 15s. 2d. per member in 1918. The earnings of these funds in 1919 were at the rate of 4·52 per cent. per annum, or about one-third of 1 per cent. higher than in 1918.

EXPENDITURE.

3. The total expenditure amounted to £89,662, which was £4135 more than the previous year, and £9306 less than the total receipts. The analysis of expenditure per member in Table 3 shows how 1919 compares with previous years. Medical expenses remain steady, and management shows a very slow gradual increase. Sick pay, however, which during the war years was somewhat lower owing to the absence of members at the front, was in 1919, nearly 40 per cent. above normal. The increase was no doubt chiefly due to the influenza epidemic.

Funeral benefits were £21,248, against £27,121 in 1918, which, though substantially lower, was still more than twice as much per member as 10 years ago. Part of the increase is due to the war. Of the 276 deaths of members accounted for in 1919, over 100 were deaths of soldier-members; most of these had occurred in previous years, but the payment of funeral benefits had been delayed. Beyond the war effect the average amount of the funeral benefit has increased greatly in recent years (see Table 4), from less than £50 ten years ago to £75 in 1919.

"AID TO FRIENDLY SOCIETIES ACT."

4. The liability of the Government under the "Aid to Friendly Societies Act," which came into force in March, 1917, and provided substantial benefits to societies during the war period, has now ceased, and the last payments have been made during the current year. In accordance with the provisions of the Act, the societies have paid to the Government premiums of £16,196, and received towards payment of death-claims £31,576, partly in cash and partly in Government stock. The number of financial members that enlisted was 2903, of whom 588, or 20 per cent., lost their lives.

FUNERAL BENEFITS.

5. The feature in the Statistics of Tasmanian Friendly Societies which particularly merits attention is the rise in the amount of funeral benefits from an average of £40 to £75 in the last 15 years, coupled with the practice of raising this money by a special levy on members. Mr. Barry, the Government Actuary of Victoria, in his report on Tasmanian societies in 1911, deprecated the practice of special levies for this purpose, and recommended that funeral benefits be limited by law to £20.

In Victoria at the present time the usual funeral benefit is £20. In New South Wales, though the law permits a funeral benefit up to £200, they are in practice kept low, and in recent years have cost only 8 to 12 per cent. of total expenditure, against 17 to 25 per cent. in Tasmania. The Tasmanian practice amounts to an unsatisfactory and ineffective attempt at life insurance, and is undesirable for the following reasons:—

(*a*) The first aim of a friendly society should be to provide for medical attention, sick pay, &c., during the life of a member, and for a sum at death to cover funeral expenses. The contributions necessary for this should be kept as low as possible, so as to be within the means of as many people as possible. The payment of £100 on death, which is the practice in some societies, adds considerably to the necessary expense of membership.

(*b*) The funeral benefit is a bad form of life insurance, because it is forfeited absolutely by failure to keep up contributions, even after a long period of years; in this the societies contrast badly with life insurance offices.

(*c*) The amount is insufficient to be of much use, and yet the prospect of it probably tends to deter members from attempting regular life insurance.

(*d*) An urgent need is a substantial increase in sick pay, to balance to some extent the decreased purchasing power of money. Any available funds should be devoted to this end rather than to large funeral benefits.

For these reasons it may be desirable to limit by law the amount of funeral benefits.

Life Insurance.

6. At the same time, it is worthy of consideration whether friendly societies, while carrying on their essential functions as indicated above—para. 5 (*a*)—should not add an optional life insurance department to their activities. Many people are unable to make the comparatively large quarterly payments required for the ordinary business of life insurance offices, though they might pay 1s. or 2s. per week. Provision is made for these by the industrial branches of the regular offices; but the expense rate of industrial branches is notoriously very high, and the "industrial" business generally has not been very successful. The friendly societies, on the other hand, are in a position, both to get business and collect the premiums with very little additional expense. The payment of 1s. per week from the age of 18 years would bring in at present rates a sum of over £400 on death, which would be a substantial measure of life insurance. Such insurance, if carried on by friendly societies, should be optional for members. It should be kept financially distinct from other business, and carried on in accordance with the approved method of life insurance.

Investigation of Funds.

7. It is now over nine years since an actuarial investigation of the funds of the societies was held, and it is desirable that a new investigation be made as early as possible. The effect of the late war on the societies' position makes this recommendation a matter of urgency.

Conclusion.

8. The matters to which attention is particularly called are—

(*a*) Actuarial investigation of funds.
(*b*) Limitation of funeral benefits.
(*c*) Increase of sick pay.
(*d*) Separate life assurance by societies on industrial lines.

It is suggested that a report on principles and methods in connection with (*b*), (*c*), and (*d*) might be obtained from the actuary who carries out the investigation of (*a*).

Detailed tables, 1 to 5, are appended.

L. F. GIBLIN, Government Statistician.
